Toronto's Recreation Facilities
A Resource Manual

General Introduction

In 1983-'84, the Departments of Planning and Development and Parks and Recreation undertook a study of recreation planning issues in Toronto. For this study, Recreation in Toronto: A Game Plan for the '80s, a computerized data base on publicly accessible recreation facilities was developed. This manual takes this information and organizes it for ready use both by individuals and groups with a particular recreational activity in mind and by groups interested in recreation and community services planning.

What information do we have?

The information we present is generally limited to the area of recreation. A facility site is included if there is a recreation component, e.g. a community room in a library or a gym in a settlement house, but not if the site is non-recreational, eg. the auditorium at the St. Lawrence Centre. It identifies and partially describes facilities. This manual focusses on the places where recreational programming or activities can occur. Given the extreme range and variety of programmes and facilities, this manual simply presents the existing types and numbers of facilities at each site. In counting facilities, variations in accessibility, quality, maintenance, and, to a certain extent, size could not be fully documented.

Who can use this Manual?

We had two general types of users in mind when designing of this manual:

1. There are individuals, families and groups who simply want to engage in a single activity, such as swimming, soccer or tennis. For them, there are the Quick Reference Listings for different types of facilities across the City.

2. For information that is more complex, such as a gym and pool combination or a full community resource assessment, there are the Master Listings. These provide all the facility information available on each site and add details on location, use qualities and support facilities. For both kinds of users, there is an Appendix detailing contacts within each system, such as the recreation department, library or school boards, who could provide information on available programmes and procedures for renting or permitting space.

How complete is the information?

In conducting our recreation facilities inventory, we limited ourselves to sites that are or are perceived to be easily accessible to the general public. The systems of facilities included are:

Metro Toronto Schools and Parks
Public Elementary and Secondary Schools
Separate Elementary and Secondary Schools
City Community Centres - Association of Community Centres and Boys' and Girls' Clubs
Private Community Centres - Toronto Association of Neighbourhood Services, YMCA, YWCA, and Jewish Community Centre
City Arenas, Parks and Recreation Centres
Public Libraries

The City Community Centres' category includes both the nine Association of Community Centres (AOCC) facilities and the five Boys' and Girls' Clubs because City Council has a direct interest in their operations and/or premises. The Private Community Centres category clusters together the six Toronto Association of Neighbourhood Services (TANS) settlement houses, the YMCA, YWCA and Jewish Community Centre because these are independent operations.

Within each of the above categories, we counted the following indoor and outdoor facilities:

INDOOR	OUTDOOR
Arena Ice Pads	Natural Ice Rinks
Pools	Artificial Ice Pads
General/Multi-purpose Rooms	Wading Pools
Regulation Gyms	Outdoor Pools
Auditoria/Theatres	Hardball-Regulation Diamonds
Tracks	Hard/Softball Scrub Diamonds
Squash/Racquetball Courts	Softball Regulation - Lit Diamonds
Woodworking/Industrial Arts Rooms	Softball Regulation - Unlit Diamonds
Crafts Rooms	Football Regulation Fields
Public Libraries	Soccer Regulation - Lit Fields

Meeting Rooms
Kitchens
Fitness Rooms
Home Economics - Instructional Rooms
Change Rooms

Soccer Regulation - Unlit Fields
Football/Soccer Scrub Fields
Playgrounds
Bocce Courts
Lawn bowling Greens
Regulation Tracks
Tennis Courts - Lit
Tennis Courts - Unlit
Beaches
Parking

Because our labels for some of these facilities may differ from normal usage, for example, playgrounds or gyms, the Definitions section in the Appendices should be reviewed before referring to the listings. Again, because size, quality of conditions and use restrictions vary between the different facility systems and between sites, one should not assume that all multi-purpose rooms, for example, are the same. The contact references we provide in the Appendices will help users find the most suitable site for their purposes.

To the best of our knowledge, the listings are accurate and complete for facilities existing or under construction as of September, 1984. Since active recreation was our prime concern, park sites are listed only if they contain indoor or outdoor facilities or are at least 5,000 square meters in area.

Format

As mentioned previously, the contents are presented in two different formats with different users in mind. For those interested in a specific facility, the Quick Reference Listings identify all sites in the City by individual facility type. For organizations planning a multi-activity event or participating in a community needs and resources assessment, there are the complete Master Listings.

Both listings make use of the district and sub-area map on the next page.

QUICK REFERENCE LISTINGS

Quick Reference Listings

Who Should Use This Section

These listings indicate where you can go to make use of a specific type of facility. It assumes you are interested principally in one kind of activity, such as skating, swimming or tennis. The table of contents will direct you to the pages where each of the sixteen facility listings begin.

How Do You Use These Listings?

As the example below shows, if your interest is in outdoor pleasure skating or hockey, the listings will show you where the outdoor artificial ice pads are by district, name of site, and address. The District Reference Number allows you to use the maps at the beginning of each district in the Master Listing section to locate a site if the name or address are not familiar. For example, Alexandra Park is site number 31 on the Central District maps. The column headed "Number" indicates, in this sample, the number of outdoor artificial ice pads at each site.

Master Listings

Who Should Use This Section?

These listings reproduce the main data base with two types of users in mind. First, some groups may want to run a combination of indoor and outdoor activities, like a junior olympics. Their need is to find a single site or several sites near each other with a full range of facilities such as a track, soccer field, swimming pool, gym, and change rooms. The district maps and full site listings will assist them in locating the best mix of facilities and locations.

Second, a planner, a service organization or a community group may want to undertake a full community resources assessment. The listings provide three means of site identification (ward and ward sub-divisions, census tract, facility district and sub-area). These can be used as building blocks for setting-out a geographic area and totalling its recreation resources.

How Are These Listings Organized?

These listings break the City down into four districts (West, Central, East, North) with three to four sub-areas per district. The map showing the district and sub-area boundaries for the City is at the beginning of this section. Each district sub-section starts with one to four detailed maps showing the sub-areas. All the sites in each sub-area are shown as numbers on the maps, e.g. 61 , which refers you to their location in the listings for that district.

The district listings are organized in the following categories: metro parks and schools, public schools, separate schools, parks, recreation centres, arenas, community centres - city, community centres - private, and public libraries. In each category, the individual sites are listed alphabetically by name.

The following samples show the kind of information available: A sample TANS centre:

77 COMMUNITY CENTRE- PRIVATE UNIVERSITY SETTLEMENT HOUSE 25 GRANGE RD

CENSUS TRACT : 36 WARD-DIV : 6-5 CENTRAL DISTRICT SUB AREA #1

FACILITIES:	INDOOR POOL	1	GENERAL/MULTI-PURPOSE ROOM	1	REGULATION GYM 1

COMMENT: GRENADIER & EAST PONDS,HIGH PK. FOREST SCH.,LIT HARDBALL

Explanatory Notes:

* The numbers on the left hand margin, 77 and 110, are the district reference numbers. These can be used to locate the site on the district maps and in the district listings.

* The address shown is the confirmed municipal address which may differ for building sites, i.e. schools, centres, etc., from the mailing address. Other City computer files could be accessed using this address to obtain additional information.

* Maps showing the census tracts and ward/sub-division boundaries are in the Appendices.

* Facilities counts are based on the Definitions contained in the Appendices and may differ from the common designation, e.g. some elementary school multipurpose rooms are commonly referred to as gyms. Our facility name indicates what the room is built and permanently equipped as, irrespective of portable equipment brought in for programming. Also, for schools, the only rooms shown are those the public can permit.

*Comments: This entry picks up special facilities or programmes, such as daycare, darkroom; it may list legal seating capacities for gyms and multi-purpose rooms as set by the Ontario Fire Marshal; and it may also indicate neighbouring public sites, "See ..." with additional facilities of interest to the consumer or planner.

* Friendliness, Restrictions, and Availability: To give some indication of the quality of building facilities (centres, schools, arenas, libraries), three measures were used. The first indicates User Friendliness on a scale of High, Medium or Low. The details of the rating system used for Friendliness are set out in the Appendices.

The second measure is User Restrictions. These are defined as:

Member - Members only or significant fee charged;
Programme - Programme participation or group permit only;
General - General, walk-in use and/or programmes and permits.

Availability (%) indicates the availability of the facility as a percentage of 72. Seventy-two hours per week was used as a reasonable total available time for a public facility. Hours of actual availability for the public were determined from posted hours of operation or by asking the responsible manager on-site. Maximum value shown is 100%.

Facilities were rated independently by students based on site visits and are intended for general guidance only. The contacts listed in the Appendices should be used if more detailed information is required.

Groups engaged or wishing to engage in a community needs and resources assessment for their area can seek further assistance from the Planning and Development Department, Community and Neighbourhoods Division (947-7191) or the Department's Community Renewal Section (947-7447).

Definitions

Indoor and Outdoor Facility Coding

The number showing after each component is the number of that component present at that site, e.g. changerooms, tennis courts, etc. (NOTE: a double artificial ice rink or double general purpose room is counted as two; a boys' and girls' change room pair is also counted as two.

The principal rule determining facility definition is that it is the quality of the facility and its permanent equipment that categorizes it, not what portable equipment is brought to it and the programmes thus run in it. For example, a room is a multi-purpose or a meeting room as opposed to a fitness or crafts room if it is not permanently equipped for that use (i.e. with a kiln, pottery tables or counters, or weight machine and racks).

These then are the definitions used to classify specific facilities:

Indoor

- **Auditorium/Theatre**

  A self-contained assembly area that can accommodate more than 50 persons provided with permanent seating and a stage.

- **Change Rooms**

  Lockable rooms specifically for dressing up for programmes; hooks/cupboards provided. This includes change rooms off-stage even if no washing facilities are provided.

- **Crafts**

  A separate room permanently set up for crafts activities, for example, a kiln, work counters, sinks, pottery wheels, loom etc.

- **Fitness Room**

  A separate room permanently provided with exercise equipment (e.g. weights, mats, etc.) and exclusively used for this purpose.

- General/Multi-purpose Room

  Any sizable meeting area that can accommodate more than 50 persons and a variety of activities. It may or may not include a fixed stage or wall mounted accessories (e.g. screen, basketball hoops), but it does not contain fixed seating. This includes all elementary school general/multi-purpose rooms and large school rooms such as cafeterias, playrooms and lunchrooms. Rooms are not counted where their built form (eg. odd configuration, very low - 8 ft. high or less ceilings), current condition (e.g. unheated, no ventilation, partial use as storage), or management (e.g. opposition to granting permits, normally set up for class or other use) greatly restricts public use.

- Regulation Gymnasium

  A large, self-contained activity area provided with permanent or semi-permanent recreation equipment and suitably marked and dimensioned for indoor sports. Rule of thumb - a full court, league-level game of basketball could be played.

- Indoor Track

  A physically distinct, measured running course not part of a general purpose activity surface, i.e. not a course painted on a gym floor.

- Kitchen

  A food cooking and/or preparation area available for public use and capable of serving groups of 20 or more. School staffroom kitchenettes are counted if a similar level of food service is possible.

- Meeting Room

  An activity room suitable for groups of less than 50 persons. This includes school classrooms and staffrooms and small playrooms. School rooms such as labs or special education and language rooms are not counted since public use is not normally permitted.

- Woodworking/Industrial Arts Room

  A shop area permanently equipped with wood and/or metal working equipment and tools and proper ventilation and safety equipment. Includes relatively direct outside

access and is suitably sized for construction projects. This does not include auto or trade skills instructional room; these are noted as comments. Rule of thumb - at least a small group (3-4 individuals) could be working on one or several projects simultaneously and safely.

Outdoor

- Football Regulation

  This includes any football field, lined and with goal posts whether in a park or at a secondary school. They may also be used for soccer. In some parks, the same field may overlap on the outfield of a softball field. Both are counted since permits are issued for such uses, though at different times.

- Hardball/Softball and Football/Soccer Scrub

  This largely records elementary schools with sodded ball fields well below regulation size. Asphalted fields whether for baseball or football/soccer are not counted. Rule of thumb - "junior sized", pick-up games possible but not adult, league play. N.B. If there are one or more baseball backstops present and also goalposts for football/soccer, the listing will have entries under both categories for the same area.

- Parking

  The number indicates the number of spaces on site. Maximum shown - 99.

- Playground

  Minimum of climbing apparatus or swings and sand or grassed play area. The key elements are the activity apparatus and a soft, i.e. non-asphalt, surface.

Net Open Space

This calculates, in square metres, the balance of open space left once the total lot area is reduced by subtracting any building and parking areas. On a school site, this includes the playground area plus any grassed boulevard space and asphalted play areas or walkways. The Unimproved or Improved designations indicate whether the open space has been substantially landscaped, i.e. at least 50% sodded plus improvements such as planting, seating areas or play equipment.

Contacts for Programme and Permit Information

Toronto's recreation system is quite rich and composed of a diverse arrangement of organizations. The following contacts can assist you in obtaining information on current programs and procedures for renting or permitting space.

In this section, we refer to convenience or mailing addresses rather than to the confirmed municipal address cited in the listings.

A. Parks and Recreation Department

1) Recreation Centres

There are currently twenty-five City-operated recreation centres in Toronto. Besides running numerous recreation programmes for all ages on a seasonal basis, all centres allow groups to permit space at certain times for their own activities. Information on programmes and permit procedures can be obtained from the Recreation Coordinator at the individual centre. A brochure on City wide programming in parks and centres can be obtained by calling 947-7259. Permit requests are reviewed by each centre's Community Advisory Council and are granted on a seasonal basis. Processing time is normally 4-6 weeks if no special conditions, such as a liquor permit, are involved.

Recreation Centres	Phone	Address
Adam Beck Community Centre	691-5754	400 Scarborough Rd.
Annette Recreation Centre	769-3312	333 Annette St.
Balmy Beach Recreation Centre	694-0803	14 Pine Ave.
Beaches Recreation Centre	698-5084	6 Williamson Rd.
Bedford Park School	947-7265	81 Ranliegh Ave.
Brown Community Centre	967-7222	454 Avenue Rd.

Market Lane Community Centre	947-7265	85 Lower Jarvis St.
Maurice Cody Community Centre	485-9557	364 Belsize Dr.
McCormick Recreation Centre	537-4194	66 Sheridan Ave.
Pape Recreation Centre	461-3531	953 Gerrard St. East
Parkdale Community Centre	537-2250	46 West Lodge Ave.
Regent Park Recreation Centre	363-2955	415 Gerrard St. East
S. H. Armstrong Recreation Centre	463-5721	56 Woodfield Rd.
Swansea Community Centre	763-1719	95 Lavinia Ave.
Trinity Recreation Centre	537-2519	155 Crawford St.
Wallace-Emerson Community Centre	537-0803	1260 Dufferin St.

2) Parks

Permits for all hardball and softball diamonds, football and soccer fields, and outdoor artificial ice rinks are handled centrally. There is a somewhat shorter approval time and, as for recreation centre permits, there are formal requirements to be met. The contact number is 947-7291.

The Department also operates a number of supervised junior and senior playgrounds. All wading pools are supervised when in operation. Information on the nearest site can be obtained from the region offices:

East 947-7261

West 947-7276

3) Arenas

Each arena is directed by its own Board of Management and enquiries on times and fees should be made via the arena manager.

Arenas	Phone	Address
Forest Hill Memorial Arena	488-1800	340 Chaplin Cres.
George Bell Arena	762-5561	215 Ryding Ave.
McCormick Playground Arena	531-8202	179 Brock Ave.
Moss Park Arena	368-1512	140 Sherbourne St.

North Toronto Memorial Arena	485-0301	174 Orchardview Blvd.
Ted Reeve Arena	694-6893	175 Main St.
William H. Bolton Arena	532-0088	40 Rossmore Rd.

B. Toronto Board of Education

All bookings are handled centrally at the Board's Permit Department, 591-8289. Only non-profit groups can use their facilities, and children's programmes take precedence over adults'. Permits are issued for the school year (September to June); groups must re-apply by June for July and August times. Fifty percent of the group's membership must be City residents, and at least fifteen people must regularly attend to keep the permit valid. Three weeks notice of the date required is a minimum.

High school facilities cannot be booked Monday through Thursday during the school year due to continuing education programming. Gyms are intensely used, and a waiting list is normal. Permits for Monday to Fridays 6:00 to 10:30 p.m. are free; Saturdays and Sundays may involve a fee. Special school events can preempt a permit. Every attempt is made to ensure that plenty of notice is given in these circumstances. Signing a permit indicates acceptance of responsibility for any damage.

In addition, information on Continuing Education programmes can be obtained at 591-8149.

C. Metropolitan Separate School Board

All permits are handled through the central Permit Department at the Board headquarters on Sheppard Avenue East in Willowdale. The direct line is 229-5311. Applications are mailed upon request. The normal processing time is ten working days.

D. Community Centres - City and Private

All programme and permit enquiries should be made directly to the executive director or manager of the individual centre.

Association of Community Centres	Phone	Address
Cowan Avenue Firehall	531-1564	224 Cowan Ave.

Northern	487-7151	2532 Yonge St.

Jewish Community Centre (Spadina Branch)	924-6211	750 Spadina Ave.

E. Toronto Public Libraries

All booking enquires are made through the Branch Head at the individual library (See the telephone book listings under "Public Libraries - Toronto"). Some rooms are booked long-term for certain set times, so four weeks' notice would be a wise move. There is no fee involved if the branch co-sponsors the event; otherwise, a small fee is charged.

Facility Ratings Information

1. User Friendliness

a) Is there a sign in a prominent public position clearly identifying the facility near or visible from the street?

b) Is there a grade level entrance or entrance ramp, and an elevator if multi-storey?

c) Is there a staffed reception desk or main office close to main entrance?

d) Is programme information (what, where, when, who) prominently displayed near entrance?

e) Are several activity areas visible from the main lobby/entrance (as opposed to closed doors or long corridors)?

f) Is the facility well maintained and safe looking (well lit, "cheery", clean and fresh)?

Scoring

High	5 or 6	Yes responses
Medium	3 or 4	Yes "
Low	1 or 2	Yes "

2. Use Restrictions

Information was gathered during discussions with the head person at each facility, i.e. school principal, centre recreation coordinator, librarian, or community centre director.

Coding

Member - members only, substantial annual fees ($100+) or individual event or use fees ($5 individual, $25 group).

Programme - Programme participation only, user must enroll in a class or programme; nominal fee (less than $3 per event or $20 for course).

General - General public access; including a mix of "wander-in-and-join-in", solitary, and group participation options.

3. Availability

Seventy-two hours per week was set as a reasonable total for a public facility. Calculation of operating hours was taken from those posted at the facility or as stated by the manager. Although some facilities exceed 72 hours per week, 100 is the highest percentage noted.
